Cumulative landings by week are shown in Figure 1.

Fishing year is May 1st, 2000 - April 30th, 2001

Landings are derived from data collected by port agents from ports which handle large amounts of cod landings and then expanded to account for smaller ports using historical information.

Data were partitioned into their respective stock areas using the cod exemption data, port agent interviews and historical data.

The trigger for GOM cod is 759mt by July 31st, 2000.  
Reaching this trigger may cause additional management measures to be imposed.

The target TAC for GOM is 1,918mt.  
The target TAC for GB cod is 4,145mt.

**DATA ARE PRELIMINARY AND SUBJECT TO CHANGE.**
